Our Work Process

- A) We work price with factories then we confirm the price to our buyer as quickly as possible.
- B) After Price confirmed we do sample for the buyer requirement for approval
- C) After Price and delivery is set we request buyer to issue PO sheet with full order details.
- D) After we receive and review the PO sheet we request buyer to open the Master L/C or TT against the PI.
- E) Upon receipt of Master L/C we transfer if it to the factory (Maker).
- F) After transferring Master L/C to the maker we push them to open the Back to Back L/C for fabrics & Accessories
- G) We always follow up closely with fabrics and accessories supplier to ship/deliver the fabrics and accessories on time.
- H) Before shipment as per requirement we will check Azo, Nickel release, pH value, Phthalates, Colour fastness etc by Breauve Vrietas
- I) Meantime we take all necessary approval on FIT, PP sample from our buyer.
- J) When factory receive all the fabrics and accessories in hand we used to get FTY to make pre-production
- K) When production starts our QA people go for inline inspection according to buyer inspection procedure.
- L) When our QA finds everything okay in inline inspection then they give instruction to go ahead for bulk production.
- M) After final inspection we ship the goods.
- N) We follow up cargo stuffing, vessel booking, and ETD, ETA and update buyer accordingly.
- O) After shipping the goods we push our maker to prepare the shipping DOCS without delay and submit to their bank so those buyers receive the documents on time and prepare clearing formalities at their end.

Motto	To supply desired products with finest quality and at a cheapest competitive rate and to maintain minimum possible lead time and we ensure to you our best product quality.
Mission	With increased globalization of the apparel supply chain, barriers to communication due to geography, language and culture have emerged between the Buyers and the Sellers. It has, thus necessitated the need for the Sourcing Agents to bridge that gap. Our mission is to provide an one-stop platform to ensure delivery of the right product at the right time. We, therefore, aim to provide high quality value for money materials through effective communication and monitoring regimes while establishing a successful relationship between all the partners in the global apparel market.
Vision	We believe that good quality and on time shipment are the best advertisement and we let our service for them. Our aim is not just to meet a customer's needs but to go beyond that to build long term relationships. We believe that good care today will mean better business tomorrow. To us customers' satisfaction means more than just satisfaction with our product or service. We are determined that "our customer will not be just a customer But will became a partner"
Values	We take prudent risks and tough decisions as a team and hold accountable for our actions which is performance driven.
